HMS Wave

OPTIPOINT

We are excited to announce the latest OptiPort updates, designed to elevate your user experience and streamline your operations. Our team has continued to work diligently to bring you new features and improvements that will enhance your experience and optimise efficiency.

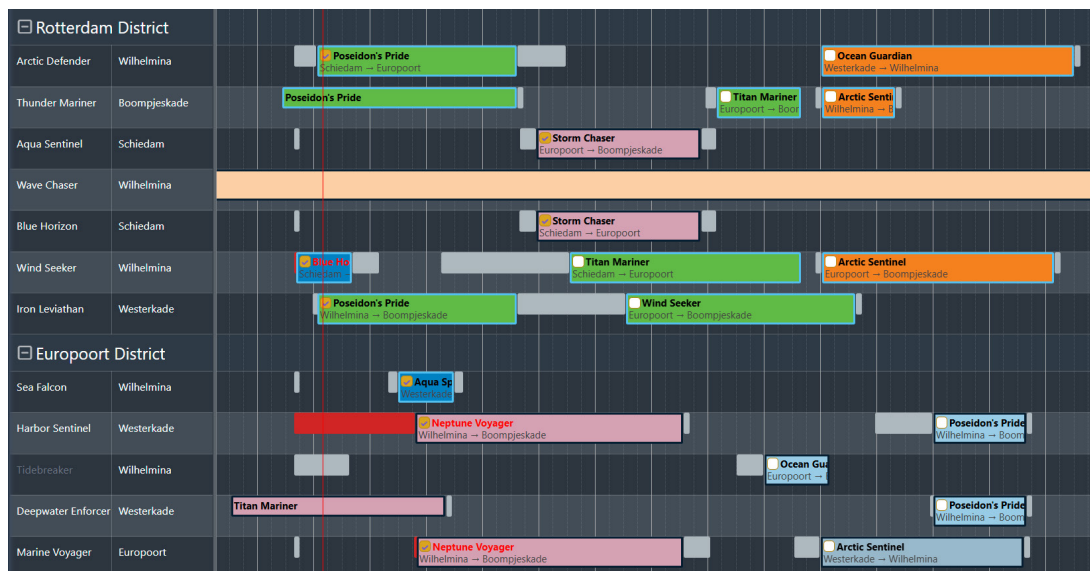

1. IMPROVED PLANNING VIEW

The core of OptiPort, the 'Planning' view, has been refined to be more intuitive and user-friendly. Key improvements include:

- Display of berth start and destination locations on towages.
- Compact layout and improved spacing of events and resources within the timeline.
- Accurate timestamps indicating when each schedule is generated.

HOW TO:

- Navigate to 'Planning' via the left sidebar. The updated layout offers a more compact view with enhanced details. A timestamp is displayed at the top.

2. INTEGRATED INFO WARNINGS IN THE SCHEDULE

Relevant warnings and additional information about tugs, vessels, or towages are now directly visible in your schedule.

Examples:

- A vessel has no AIS signal for the past two hours.
- A tug is approaching its maintenance deadline.
- A scheduled towage is delayed due to bad weather.

These warnings can be linked to specific resources (e.g., tugs) or events (e.g., assistances, towages, mobilisations / demobilisations), providing real-time visibility into potential issues. This allows you to make informed decisions faster and keep operations running smoothly.

HOW TO:

- Navigate to 'Planning'.
- When a warning icon ⚠ appears, hover your mouse over the resource or event to view the message.

The screenshot shows a schedule grid with a warning icon (⚠) next to the entry 'LEVIATHAN PRIDE' with the route 'Wilhelmina → Europoort 2'. A tooltip is displayed over the entry, containing the following details:

LEVIATHAN PRIDE	
From	Wilhelmina
To	Europoort 1
Start	11:42
End	16:59
Trip Type	LEVIATHAN PRIDE
Job Type	Assist

Below the details, a warning message is shown:

Warning
Delayed due to bad weather

The screenshot shows a schedule grid with a warning icon (⚠) next to the entry 'Blue Horizon' with the route 'Europoort'. A tooltip is displayed over the entry, containing the following details:

Warning	
Missing AIS data for the last 0:47 hours	

Below the details, a table lists the resources:

Blue Horizon	Europoort
Wind Seeker	Schiedam
Iron Leviathan	Boompjeskade

If you would like to set up **Custom Warnings and/or Info Messages** for your operations, please contact us at optiport@kotug.com.

IMPROVEMENTS & FIXES

We have introduced several fixes and enhancements to improve your experience:

- **Improved Tug Timeline & Job Replay UI:** The minimise button now only minimises jobs, not the player.
- **Enhanced snapshot browsing:** You can now view previous and next generated schedules while browsing, improving workflow efficiency.
- **Fixed missing Tug Timeline labels:** Resolved a rare bug where some labels were not displayed.
- **Fixed duplicate company names in Analysis:** Resolved an issue where some company labels appeared multiple times.

COMMITTED TO YOUR SUCCESS

We hope these updates enhance your experience with OptiPort and streamline your operations further. We are committed to continually improving our platform, and your feedback is invaluable.

For any feedback, please feel free to contact the KOTUG Optiport team via optiport@kotug.com

KOTUG is a leading international towage and maritime company. Driven by our passion 'Ahead in Maritime Excellence', we empower our clients and stakeholders with the complete portfolio.
